FOR IMMEDIATE RELEASE: 23RD OCTOBER 2017 (see images below)

Rudd in cover up of Seig Heiling toffs paid to canvass in Hastings

Desperate measures have been taken by MP for Hastings & Rye, Amber Rudd, embarrassed by evidence that far-right Oxford University students have been paid to canvass for her in Hastings. The precarious incumbent MP, with a slender majority of 346, has gone to extreme measures to boost her waning popularity.

On Friday, Hastings Solidarity released photographs of far-right recruitment in the ultra privileged Conservative Association at Oxford University. In a Facebook event students were told they would be paid to travel to Hastings to help canvass for the ailing MP. 5 Tory students stated their intention to travel. After a short investigation Hastings Solidarity found shocking and blatant evidence of genocidal politics with one student, George Wright, proudly performing a Nazi salute. The Hastings & Rye Conservative chairman Graeme Williams lied on Twitter using the Donald Trump tactic of smearing factual reporting as "Fake News!", incompetently he even got the phrase wrong and called it "False News!". Just like Donald Trump he used his lies to protect white supremacists. Facebook has been pressured by Rudd's campaign to remove the Hastings Solidarity article with evidence of seig heiling, students that were being paid to travel to Hastings to canvass for the politician.

The millionaire Rudd, MP of the deprived constituency of Hastings & Rye has employed extreme tactics to improve her declining popularity. She's hired the infamous Australian Tory propagandist Lynton Crosby. Lynton's previous assignment was the last general election where he was paid £4,000,000 total averaging at £85,000 per day¹. We ask how much is he being paid to promote the dangerously incompetent Home Secretary? The Chief Tory whip ordered MPs to attending the canvassing but HaSol saw no evidence of their attendance.

The Conservatives successfully pressured Facebook to removed Hastings Solidarity's article but we still have the article on the website² and on the HaSol Twitter account³.
